WHOLESALE TRADE LIST

FALL
1906

WE cater to the plant buyer who appreciates the value of quality. It requires little skill, less ground and but a layman's attention to grow the ordinary run of stock and if you are seeking to buy nursery stock at the lowest possible price you must not expect to get the best quality. We prefer to grow "quality" and allow "price" to arrange itself; not an exorbitant price but a fair return for what we sell you.

¶ In dealing with us you get the benefit of our half a century's experience and the best work of an efficient force of men trained along practical lines. Is it not more satisfactory to entrust your orders to a firm recognized as one of the foremost in its profession?

¶ Do you want quality or the lowest price obtainable?

¶ We guarantee satisfactory service and first quality stock in all business entrusted to us.

Thomas Meehan & Sons, Inc.

WHOLESALE NURSERYMEN

WHOLESALE DEPARTMENT

Dreshertown, Montg. Co., Pennsylvania

300 ACRES

Founded 1854 by Thomas Meehan
Incorporated 1902
Capital Stock \$100,000

J. FRANKLIN MEEHAN, President
S. MENDELSON MEEHAN, Vice-Pres.
THOMAS B. MEEHAN, Sec. and Treas.

Wholesale Trade List

FALL 1906

IN preparing this, our Wholesale Trade List for Fall 1906, we have aimed to present our large collection of Hardy Ornamentals to the purchaser in the most concise form. With this object in mind and in view of the fact that it is intended for the trade, illustrations and descriptions have been purposely omitted. To those unacquainted with the stock, however, we will gladly furnish descriptive matter upon application. In fact, we delight in giving information pertaining to Hardy Ornamental Plants and inquiries are solicited.

Customers are requested to state the mode of conveyance by which they desire their trees forwarded. When no route is named we forward to the best of our judgment.

Responsibility—After goods are placed on board cars here we assume no responsibility for their safe or prompt delivery, or any injury caused by delay in delivery by the transportation company.

All Claims must be made upon receipt of goods.

Terms Cash, on or before delivery to express or railroad agents, unless by special arrangement.

Two Hundred and Fifty, twenty-five and five will be furnished at the thousand, hundred and ten rates respectively.

Packing Charged Extra, but only sufficient to cover cost of time and material.

**Post Office Orders payable at Dreshertown, Montgomery Co., Pa.
Telegraph Office, Ambler, Pa.**

Visitors are always welcome and should take train at the Reading Terminal, 12th and Market Streets, Philadelphia, for **Camp Hill Station**, or at Broad Street Station, Pennsylvania R. R., for **Fort Hill Station**. Be sure that the train you take stops at these stations.

Notice.—It is necessary that you should **Telephone** us (Bell Phone, 26 Fort Washington; Keystone Phone, 76-Y Jenkintown), in advance of your coming, so that we can send a carriage to the station for you. Our office is $2\frac{1}{2}$ miles from either station.

[COPY OF CERTIFICATE]

**THE COMMONWEALTH OF PENNSYLVANIA
DEPARTMENT OF AGRICULTURE**

Certificate of Inspection of Nursery Stock No. 901.

This is to certify that the stock in the nursery of **THOMAS MEEHAN & SONS, INC.**, of Dreshertown, County of Montgomery, State of Pennsylvania, was duly examined in compliance with the provisions of the Act of Legislature of Pennsylvania, approved the 10th day of June, A. D., 1901, and it was found to be apparently free from San Jose Scale and other dangerously injurious insect pest or pests.

This Certificate expires July 31, 1907.
Dated Harrisburg, Pa., Sept. 15, 1906
THOS. C. LE FEVRE, Inspector.
Inspected Sept. 5th, 1906.

A. B. Critchfield,
Secretary of Agriculture.

Deciduous Trees

"Trans." signifies the stock has been once or more transplanted.

Where stock is marked "Specimen" it indicates trees that have been several times transplanted, of good shape, straight stems, and have been grown especially for individual specimen trees.

JAPANESE MAPLES

All of the Japanese Maples offered by us are of our own propagation. Customers who have planted them side by side with the rough, hide-bound and poorly rooted imported Japanese plants quickly recognize the merits of our home-grown stock. It is worth the little additional price charged over the imported stock. Note that many of the plants offered are pot grown. They transplant more easily by handling them in that way. All field-grown stock has been frequently transplanted.

2½ to 2¾ in. cal. specimens.....	20 00		
3 to 3¼ in. cal. specimens.....	25 00		

Our *Catalpa speciosa* have good straight stems, nicely headed and stocky in the trunk.

Cedrelia sinensis			
6 to 8 ft. trans.....	6 00	50 00	
14 to 15 ft. trans. specimens.....	20 00		

The *Cedrelia sinensis* is a tree similar in appearance and general character and habit to the *Ailanthus*, and will thrive under similar conditions, but it does not have the disagreeable odor when in flower. It is without doubt one of the best trees for street planting in cities and will thrive where no other tree will grow.

Cerasus avium alba plena, Double White Flowering Cherry			
3 to 4 ft. trans.....	3 50

OAKS

We believe we are the largest growers of Oaks in the United States, and we feel sure that there is no finer stock growing anywhere. Our soil seems particularly adapted to the growth of the Oak. Our trees are well furnished, with bushy heads, and good straight stems. They are stocky and have the best of roots. We get practically no tap root, and in digging we do not allow our men to cut the roots,—they are taken out with the whole root. Note the heavy specimen trees which we offer. They are something extra fine, and where a large, well-developed specimen is required, nothing better could be gotten.

Deciduous Shrubs

"Trans." indicates that the plant has been once or more transplanted.

Shrubs marked "Specimen" are large, well-developed plants that have been several times transplanted and given room to develop.

This is exceptionally fine stock for planting for immediate effect.

The crus galli and coccinea make excellent hedge plants where a protective hedge is required. The plants should be cut well down to the ground when they are set out, and if this is done they will make a good bushy hedge the first year.

The Desmodium is an excellent plant of an herbaceous character for setting in shrubbery beds. It blooms in August and September. Being of an herbaceous character the tops die to the ground in the fall and shoot up in the spring stronger than the year previous. It is remarkably attractive, and is one of the most valuable plants of this character.

2 to 2½ ft. trans.....	8 50	75 00	
2½ to 3 ft. trans.....	12 50	110 00	

This is a new variety of the variegated leaved Althaea, the foliage showing the white and yellow variegation of the old variety, but which differs from the old variety inasmuch as the flowers open wide, and in a strong vigorous plant they are about four to five inches in diameter, while on the old variety the flowers do not open at all, but look like purple buttons.

The flower is of a purplish red color, single, and the plant blooms profusely.

This new variety of our common garden Althaea will be found perfectly hardy everywhere the old variety has proven so.

In many parts of the United States and Canada, Box Edging is not hardy, and a low, dwarf and compact plant is required as a substitute for it. The *Viburnum opulus nanus* has been found to be an excellent substitute for the Box Edging. It is naturally of a dwarf habit and will stand a lot of shearing, so that it can be kept down to a very small size. It does not bear any flowers and the leaves are smaller than the other varieties of *Viburnum*. It is perfectly hardy and can be planted in any part of the United States and Canada.

4 to 5 ft. trans. heavy.....	2 00	18 00	
5 to 6 ft. trans. specimens.....	3 50	30 00	

The *Viburnum tomentosum* is of a similar character and habit to the *Viburnum plicatum*, but instead of having balls of flowers, they are flat headed. In leaf and general growth it is about the same as the *plicatum*, and in fact it is frequently mistaken for that variety. It is perhaps a little stronger grower than the *plicatum*, and in some respects it is to be preferred. We have a particularly large and fine stock of this plant, and call attention to some of the specimen plants which we offer.

Evergreens

All our evergreens have been once or more transplanted, the larger sizes several times, and the choice varieties we move in a period not exceeding two years. These choice varieties are all dug with a ball of earth and the ball sewed in a mat. This makes transplanting almost an assured success. Our evergreens should not be confused with the low-priced plants frequently offered. We move them constantly in order to secure a good root growth, and they are less liable to loss when shipped.

Vines and Climbers

We direct particular attention to our "Pot Grown Vines." They are well-established plants, strong, vigorous and well grown. They are shipped without breaking the ball. The best results are obtained from using potted plants. Potted plants are especially recommended for planting in the late spring and summer, rather than field grown stock.

- Quince.** \$1.50 per lb.; 5 lbs. at \$1.25 per lb.; 10 lbs. at \$1.00 per lb.

If to be sent by mail add at the rate of 10 cents per pound to cover postage.

Sacks and box and packing charged additionally.

MANETTI ROSE STOCKS

5 to 10 mm. at \$1.25 per 100; \$10.00 per 1000
 Medium grade at \$1.00 per 100; \$9.50 per 1000; \$9.00 per 1000 in lots
 of 10,000 and over.

These medium stocks have been graded especially for us and are of a size suitable for florists' use. They average about 5 mm. and are nicely rooted. We seldom secure enough of this particular grade to fill all orders, and although we have about 50,000 still unsold at this writing, it will be well not to defer placing your order.

Box and packing charged additionally at cost.

CONDITIONS OF SALE—All offers and acceptances of orders are subject to our receiving the full quantity for which we have placed orders with our growers and seed collectors. Failing to get these amounts from them, we reserve the right to reduce proportionately all orders that have been booked.

GUARANTEE.—While we try to procure the very best seeds on the market, we give no guarantee either expressed or implied. Samples will always be furnished when applied for. If the seeds are not accepted on these terms, we must be notified at once. If they are kept it will be taken as proof that they are satisfactory.

ALL CLAIMS must be made upon receipt of goods. **RESPONSIBILITY**—After goods are placed on board cars here we assume no responsibility for their safe delivery.

Nurserymen's Supplies

THE BEST NURSERY SPADE

Either Square or Taper Blade

Send Your Order Now. Don't Leave It Too Late

D Handle, Double Strap, Reinforced Nursery Spade. Weight, 9 $\frac{1}{4}$ lbs.

We have experimented with a number of different makes of nursery spades, but find this to be the strongest, best and most durable on the market. We have been using this spade for a number of years, and it will stand more hard work than any other make. It is strapped full length of handle, both back and front, and half way up it has double straps, strengthening it in what otherwise would be its weakest parts. When ordering state if straight or taper blade is wanted. Price, \$1.75 each; \$20.00 per doz.

PRUNING SHEARS, BUDDING AND PRUNING KNIVES

The shears and knives offered, excepting the "Empire," are the celebrated "Maher & Grosh" make, which is sufficient guarantee of their excellence. No better knives are made. All blades are guaranteed "razor steel" and have been thoroughly tested.

Bear in mind, our prices are for the goods POSTPAID at your risk. If you wish them by registered mail add eight cents to your order.

PRICES INCLUDE POSTAGE

Pruning Knife "A," 75c. each, 6 for \$3.75

This is the best light-weight pruning knife on the market, and is suited to all general work. Ebony handle.

Pruning Knife "B," 85c. each, 6 for \$4.75

Round handle, steel cap on end. Strong blade. Made for nurserymen who want a strong tool and keen edge. Blade oil tempered. The strongest pruning knife made.

The "Empire" Budding Knife, 80c. each, 6 for \$4.50

We warrant it. This is the finest budding knife on the market. Made expressly for us, and we warrant every knife to be first-class. Blade closes. Best razor steel. All ivory handle, tapered at end for raising the bark. If you want a good, durable budding knife, buy the "Empire."

Budding Knife "C," 25c. each, 6 for \$1.30

Stationary blade. High temper, equal to any razor.

Budding Knife "D," 35c. each, 6 for \$2.00

Cocoa handle, razor steel. Blade closes. The end of the handle is tapered to form a wedge for raising the bark.

Pruning Shears "E," 75c. each, 6 for \$3.90

These are A No. 1 in quality and are the kind in general use

Pruning Shears "F," \$1.00 each, 6 for \$5.75

This is a forged steel pruner, patent spring of wonderfully easy but powerful working capacity. There is not a stronger or better pruning shear on the market. It will out-wear two of any other style. The best is the cheapest in the end.

RAFFIA. RED STAR BRAND

1 lb.	15 cts. per lb.
1 lb (postpaid)	30 " "
25 lbs.	11 " "
50 lbs.	10 " "
100 lbs.	9 $\frac{1}{2}$ " "
1 bale (about 225 lbs)	9 " "
2 bales	8 $\frac{3}{4}$ " "
5 bales	8 $\frac{1}{2}$ " "

Order "Red Star" brand and you will get raffia of a good, even grade. No risk attached for we replace any that proves inferior. Fair, is it not? Ask for sample. We'll pay the postage.

Suitable Trees for Avenue Planting

THE selection of the proper tree for street or avenue planting is one needing serious consideration. Too frequently a cheap, fast-growing tree is chosen under the mistaken idea that it is the best tree because it will give shade quickly, overlooking the fact that a tree making a fast growth will likewise soon grow out of all proportion to the space it is allotted to occupy. With such a tree it is only a matter of a short time before the "tree trimmer" is required to reduce its top.

It is obvious therefore that a tree of somewhat slower growth is better suited for such a purpose than one of very rapid growth. This is one of the reasons why the Oaks are especially adapted for street and avenue planting. They are not slow of growth, yet they do not make the soft rapid growth of the Poplar, Silver Maple or trees of similar character. They form a beautiful, compact, rounded head—the foliage of good color, and very free from the attacks of insects. They will thrive as well in closely built portions of cities, where few other trees will survive.

Note the exceptionally fine list of varieties and sizes on pages 8 and 9.

Hibiscus Syriacus Meehani Variegata

(New Single-flowered Variegated-leaved Althæa.)

THE old variegated-leaved Althæa is one of our best shrubs where a plant with colored foliage is required, but unfortunately the flowers do not open, consequently the general flowering effect is lost.

This new variety far surpasses the old form in as much as the flowers, though single, open completely, and the color, which is of a purplish red, makes a strong contrast to the yellowish white variegation of the foliage.

Visitors to our nurseries declare this to be one of the best introductions in the horticultural field in recent years, and we have already booked numerous orders from those who have seen the plant growing on our grounds.

The above illustration shows the free-blooming character of this plant. The flowers are larger than the other varieties of Althæa. The plant is as hardy as the old variegated-leaved form.

This will doubtless be a profitable plant for all nurserymen, dealers and agents to handle. Illustrated circulars and colored plates will be furnished to those in the trade at prices below cost. Half-tone illustrations in various sizes, both small and large, suitable for use in catalogues will be furnished without cost to customers who order plants from us.

Sample colored plates, circulars and proof of these half-tone cuts, also terms on same will be sent upon application.

For sizes and prices of plants see page 16 of this catalogue.
